

C'EST MAGIQUE

WHITE HOT

When color is absent, sophisticated forms must have a presence. Take the Forio steel sconces from Faro Barcelona (above), which become the focal point of this stark room. Consider also the dramatic silhouette of this solid mahogany lamp from Christopher Guy (near left) with a white lacquer finish and off-white shade. The Lice lamp from Filomele (far left) also creates an arresting piece of décor with white LEDs and silicone shades held up by brass rods and a white lacquered wood base. The simple, organic design of the Spillo lamp from Kundalini (right) creates an unexpected effect in both indoor and outdoor spaces.
